

# OncoStem CanAssist Breast

## TRUSTED BY MORE THAN 400 INDIAN AND INTERNATIONAL ONCOLOGISTS

### MESSAGE FROM CEO

Dear Patron,

The last quarter was a positive and scientifically very satisfying one for us. Thanks to you all for believing in us and the difference that CAB is making in the lives of breast cancer patients.

In continuation to our efforts to making CAB available to a larger population across globe, I had a successful business trip to Turkey in the month of May. I presented the latest updates on CanAssist Breast via 12 talks in 4 cities over two weeks interacting with more than 130 oncologists. CanAssist Breast was well received by the oncologist fraternity in Turkey. These well organised sessions led to stimulating discussions and a lot of knowledge sharing amongst the participants leading to initiating additional clinical development programs and studies.

The oncologists of Turkey have already been extending the benefits of CanAssist Breast for their patients. 50+ breast cancer patients were prescribed CanAssist Breast over the past few months resulting in huge financial savings for patients and personalising their treatment plan.

This trip was crucial for me as it helped to plan a road map ahead for CanAssist Breast in Turkey and Western Asia region.

We had the opportunity to be part of the leading national congresses like Best of ASCO where Dr. BK Smruti, one of the senior most Medical Oncologists in India presented the latest and greatest on CAB. It is encouraging to see CAB test benefiting more and more patients prescribed the Oncologist community. Looking forward to a great year ahead!

**DR. MANJIRI BAKRE**  
Founder & CEO,  
OncoStem Diagnostics

### Leading Oncologists endorsing the benefits of CanAssist Breast

“Can some early stage breast cancer patients safely skip chemotherapy?”

**Dr. Rajeshwar Singh**, Director, Medical Oncology at Panchkula's Paras Hospital  
**Dr. Ashish Jakhetiya**, Surgical Oncologist at Geetanjali Hospital  
**Dr. Surender Beniwal**, Professor and Head of the Department,

**Hindustan Times**

OFFICIALLY LICENSED  
**BEST OF ASCO INDIA  
2022 CONFERENCE**  
24<sup>TH</sup> TO 26<sup>TH</sup> JUNE 2022

The Best of ASCO® is an annual educational initiative that condenses highlights from ASCO's Annual Meeting every year. The Scientific committee will select specific abstracts for presentation, based on its relevance, impact on day-to-day practice and the needs of oncology professionals in India.

We had a great session at The Best of ASCO India 2022, Mumbai on 24th June 2022. Our sincere gratitude to Dr B.K.Smruti - Sr. Consultant Medical Oncologist & Hemato-Oncologist - Bombay Hospital Institute of Medical Sciences & Lilavati Hospital for being the speaker for OncoStem. Her presentation on our Indian Innovation - CanAssist Breast was well received by the participants present at the conference.

Here are a few glimpses of the conference and our presentation.

## ABSICON

It was Hyderabad this time! We participated in the ABSICON 2022, held at Marriot Convention Centre, Hyderabad from 12th - 14th August 2022. A poster on CanAssist Breast was presented by Dr Ashish Jakhetiya from Geetanjali Hospital, Udaipur, Rajasthan. We also presented the ABSI - ONCOSTEM NATIONAL TRAVELLING FELLOWSHIPS to the two best paper presentations.

## Dr. Javvid Muzamil

Dr. Javvid Muzamil - Medical Oncologist - Medicare Super Speciality Hospital, Srinagar explains how breast cancer surgery has evolved and how breast conservative surgery is an alternate to mastectomy. He also addresses the benefit of CanAssist Breast Prognostic test in personalising the breast cancer treatment by avoiding chemotherapy in low risk patients.
